Who We Are

The IT (Information Technology) Club at Herron High School is a newly formed club where Apparatus will help to foster each student's passion for technology.

Information technology jobs are in high demand, while the industry has a shortage in talent. Apparatus wants to be part of the solution by giving IT-passionate students the tools and confidence to succeed in pursuing a career in IT.

The IT Club will meet on Thursdays at Apparatus.

1401 N. Meridian St.
Indianapolis, IN 46202
